

**RULE 3.19: MOTOR VEHICLE AND MOBILE EQUIPMENT COATING OPERATIONS**  
**SUPPLEMENTAL FORM**

- Please list all coatings used at the facility and place them in their designated category.
- Please attach a Safety Data Sheet for all of the coatings used.

Category	Name	Manufacturer	VOC Content (g/L) OR (lb/gal)	Maximum Annual Usage (gal/yr)
Pretreatment Wash Primers				
Primer/Primer Surfacers				
Primer Sealers				
Topcoats				
Specialty Coatings				
Extreme Performance Coatings				
Camouflage Coatings				
Solvents Thinners, Reducers, Retarders				

RESPONSIBLE OFFICIAL SIGNATURE: \_\_\_\_\_ TITLE: \_\_\_\_\_

I certify under penalty of law, based on information and belief formed after reasonable inquiry, that the information contained in this application, composed of the forms and attachments are true, accurate, complete and that I am the responsible official.

**RULE 3.19: MOTOR VEHICLE AND MOBILE EQUIPMENT COATING OPERATIONS**  
**SUPPLEMENTAL FORM**

**Rule 3.19 Requirements: Summary**

- This facility is subject to all requirements under District Rule 3.19 – Motor Vehicle and Mobile Equipment Coating Operations.
- For the purpose of this permit, "Mobile Equipment " includes any equipment, other than vehicles (as defined in Rule 3.19), which may be drawn or is capable of being driven on rails or on a roadway, including, but not limited to, trains, railcars, truck bodies, truck trailers, camper shells, mobile cranes, bulldozers, street cleaners, and implements of husbandry or agriculture.
- No person shall apply any coating to any motor vehicle unless that application is performed within a properly maintained and operated Spray Booth. All spraying of parts or components of a vehicle shall be done in a properly maintained and operated Prep Station or Spray Booth. Any repair, touch-up, or spot priming operation which does not exceed a total of nine (9) square feet per vehicle. All such operations shall be conducted in a controlled area such that a public nuisance is not caused. [District Rule 3.19]
- No person shall use organic compounds for spray equipment cleanup unless an enclosed gun washer or "low emission spray gun cleaner" as required by this rule is properly used for cleaning.
- All VOC-containing materials, whether in their form for intended use or as a waste or used product, including items such as cloth or paper laden with VOC-containing materials, shall be stored in non-absorbent, non-leaking containers which shall be kept closed at all times, except when in-use, and disposed of in a manner to prevent the evaporation of VOCs into the atmosphere.
- The spray booth filters shall be properly maintained, and free of excessive buildup of solids to minimize particulate emissions. During coating operations, the booth exhaust fans and filter system shall be in operation and working as designed.
- No person shall apply to any motor vehicle, mobile equipment, or associated parts and components, any coating with a VOC regulatory content in excess of the limits specified in Table 1, based on the type of coating used.

**TABLE 1: VOC LIMITS**

Coating Category	Regulatory VOC Content
	g/L (lb/gal)
Adhesion Promoter	540 (4.5)
Clear Coating	250 (2.1)
Color Coating	420 (3.5)
Multi-Color Coating	680 (5.7)
Pretreatment Coating	660 (5.5)
Primer	250 (2.1)
Primer Sealer	250 (2.1)
Single-Stage Coating	340 (2.8)
Temporary Protective Coating	60 (0.5)
Truck Bed Liner Coating	310 (2.6)
Underbody Coating	430 (3.6)
Uniform Finish Coating	540 (4.5)
Any Other Coating Type	250 (2.1)
